

Coaching Development Days

The Oxon AA Track and Field sub-group are planning some Coaching Development Days, probably in Spring 2024. They would be interested to hear from Clubs whether they would be interested in being involved and what their current events priorities are, to ensure that the activities meet Club needs. It is intended to focus on technical events where the County appears to be weakest, hence the limited number of events proposed.

These days will be for both athletes and coaches to come together and learn as a group in a sociable, fun learning environment.

If you could discuss with your coaches, team managers or committee and respond by completing a short survey **by 20 December**, your responses will help shape the programme of coaching development days in early 2024.

The link to the survey is: <https://forms.office.com/e/4ktDvynwpq>
